How $10,000 Became $100,000

Middlesex County Lottery Player Hits 10X Multiplier for Big Mega Millions Prize

TRENTON (January 19, 2026) – A New Jersey Lottery player in Middlesex County on Friday matched four white balls and the Mega ball as well as the 10X multiplier to increase a $10,000 prize to $100,000.

In April 2025, the multi-state game enacted a rule change that provided players with a free random multiplier. Players are eligible to win a 2X, 3X, 4X, 5X or 10X multiplier. The ticket was sold at Jersey Pride Food Store, 19 Route 516 in Old Bridge. The winning numbers were **02, 22, 33, 42** and **67.** The Mega ball was **01.** No player won the jackpot, which is $250 million heading into Tuesday's drawing.

Friday's prize was the largest multiplier factor in the Garden State since the rules changed.

In dollar terms the largest prizes from multipliers in New Jersey came when a Bergen County player in June matched five white balls and hit the 4X multiplier to win $4 million, up from $1 million, and an Ocean County player in October hit the 3X multiplier to win $3 million.

More About the New Jersey Lottery

Since its inception in 1970, the Lottery has contributed nearly $34.7 billion to the State, helping to support many worthwhile programs and services. Lottery profits currently help bolster the public employee pension system under a 30-year agreement signed into law in 2017.
